ACUTE BASKET SHORTAGE HITS GROWERS—MATCH LOW PRICES

Failure Of Processors To Take Usual Quota Of Plums Is Causing This Crop To Be Marketed In Baskets—Factories Working Overtime.

Latest problem to confront growers in this area is the acute shortage of baskets, in which to market the produce that is anything but in short supply. It is the demand for some varieties of fruit, namely plums, that is causing many a headache to grower and shipper alike.

The shortage of containers has for the past several years been an annual problem for the manufacturer, and grower in turn, this year's shortage appears to have been made even worse because of the processors' failure to take care of the tremendous crop of plums. With this outlet closed to the grower, shippers like the Niagara Packers are making every effort to find markets for the plum crop, and prevent a terrific loss of fruit.

Mr. K. C. Baxter told The Independent of one instance with reference to the shortage of baskets. Each year, Farrell's store many thousands of baskets in the arena, just as soon as the building is made ready for the summer packing season. This year not one basket was stored there, as the factory shipped their product as fast as workers turned them out.

A constant "beef" of the basket manufacturers is the growers' failure to store sufficient containers early in the spring, this factor along with other conditions has apparently helped cause one of the worst shortages in years.

Two of Canadian Wood Products plants are running two shifts in an effort to keep even close to the demand for the very essential basket. It is clearly indicated this week that thousands of tons of plums will never be picked, as processing plants indicate an unwillingness to pay the grower the \$57.50 per ton as set forth by the marketing board.

Some varieties of plums were bringing around twenty-five cents a six quart basket this week. At least three growers stated that they would rather let the fruit drop than try and meet this price. Few growers had very kind remarks for the processing plants' failure to meet the established price per ton.

BACK ON THE JOB

This is just to notify everybody, my creditors included, although they have never needed much notification, I am back on the job, until January at least. For the next few weeks I am not going to be able to work a newspaperman's full 18 hour day, but I will be back working in the daylight hours, although not able to give "Little Dyke" much help in the back shop. But I am on the job, anyway.

J. Orion Livingston

Built by public subscription and government grants, Linwell Hall, situated in Catharines, provides a fine home for a number of sightless persons, whose future is as considerably by the generosity of the public, when the Canadian National Institute for the Blind hold their annual Tag Day. In Grimsby the taggers will be on the street this Saturday, and you are urged to support generously the campaign for funds. It is with no raised on these tag days that those blind persons are given new hope and a future in forms of work which they are taught despite their handicap.

AN ENERGETIC CITIZEN OF NORTH GRIMSBY

A comparative newcomer to our midst is A. W. Arkell, president of Arkell Foods Ltd., which plant is located on No. 8 Highway, west of Grimsby. A neat, efficient plant, it is energetically controlled by "Art" Arkell and two of his three sons, A. G. Arkell, who has assumed the general manager's position, and Roy, the secretary treasurer. A third son, Ron, attends G.H.S. Mr. Arkell was born in Hamilton near the turn of the century, and for twenty-seven years conducted a grocery business in the Ambitious City before moving to Grimsby in 1942. The fruit processing plant was started in 1946. He is a member of Hugh Murray Lodge, No. 604, Hamilton, and is a charter member of the Grimsby Optimist Club, in which he has served capably as the chairman of the Boys' Work Committee. He is also the secretary-treasurer of the Grimsby Recreational Committee.

SOIL CONSERVATION PROBLEMS ARE SERIOUS IN THE COUNTY

THREE STREETS HAVE BEEN RESURFACED

Last Spring, Kerman avenue in North Grimsby, and Livingston avenue in Grimsby, along with Mountain street, were incorporated into the Lincoln county road system.

During the past two weeks county road crews have repaved the space between the curbs and the concrete roadway thus widening the roadway for safer driving. Livingston avenue has been resurfaced the complete width from Main street to Murray street and resurfaced on the south side of the boulevard from Murray street to St. Andrew's avenue, with the full width being surfaced in front of the Cold Storage plant and the Arena.

Kerman avenue has been resurfaced from Livingston avenue to the Queen Elizabeth Way.

Deforestation Is Blamed For Water Waste — Soil Fertility Is Another Problem To Be Faced — Sheet Erosion On Top Of The Escarpment Is A Bad Feature.

More so than most people realize, Lincoln County's soil conservation problems are becoming more and more acute. To do something about this, 15 persons met Thursday night and drew up a series of recommendations for soil conservation. A brief will be presented to a select committee which is slated to meet the week of Oct. 17 in Vineland. Discussed were many ideas which are to be enlarged in the brief by a committee of five including J. R. Van Haarlem, Harry Dawson, George Hostetter, Murray Misener and G. E. Nelson.

Many needs were recognized but one of the most important is the growing concern over the dropping water levels in the county. Counteracting measures included the damming of small creeks to hold water throughout the drier months for stock use.

Deforestation was blamed as the cause of water waste. Soil fertility (Continued on Page 3)

BEAMSVILLE FARMER FINED FOR FACING

Misrepresentation of a product is theft from the purchaser, said Magistrate Harley D. Hallet in sentencing Nicholas Robson, a Beamsville farmer. Robson was fined \$25 plus \$11 costs with an alternative of 15 days in jail for over facing 42 baskets of plums. Evidence showed that the top plums in the basket were grade one of good quality, but most of the ones underneath were undersized and discolored. Detailed evidence was presented by a government fruit inspector as to the condition of the plums, which had been discovered in a fruit marketing warehouse in Beamsville. Robson said that he had not packed the fruit, but he had left it up to his employees. He had no idea, he said, that the plums were packed wrongly.

ONTARIO PEACHES GO BY AIR--- CAPTURE BERMUDA MARKETS

LAKE EROSION UNCOVERS WHAT MAY BE BURIAL GROUND

YOUR TAG PURCHASE WILL HELP THE BLIND

Saturday Will Be Tag Day In Grimsby — Donations Can Be Left At Bank Of Commerce.

Sally Thompson was just sixteen when she lost her sight. She was pretty, popular and full of zest for living. Today, after several years of blindness, she still loves life. For Sally has plenty of determination and she is blessed with a pair of wise parents. They decided that blindness was a handicap that should be overcome and that it should make as little difference as possible to their daughter's way of life. They got in touch with The Canadian National Institute for the Blind. One of the Institute's Home Teachers, herself blind, visited Sally regularly and taught her to read and write Braille and to do some (Continued on Page 3)

SHOW INCREASE IN LINCOLN ACCIDENTS

More than five auto accidents out of every hundred in Ontario happened in the Lincoln-Welland Haldimand area in the first part of this year. Crashes, smashups, collisions, wrecks to the total of 821 occurred in this area.

Only six other areas in the whole province have a higher number of accidents than the Lincoln-Welland Haldimand district. We have increased our accident rate over the same period last year by 19.2 per cent.

BIG ATTRACTION AT BEAMSVILLE FAIR

Among the many great events that will be on show at Beamsville Fair TODAY, to-morrow and Saturday will be the showing of Ford products by Harris Motors of Grimsby. Harold Harris, the genial General Manager of Harris Motors states that it will be one of the biggest attractions on the grounds.

In charge of the Ford exhibit will be that debonair boy, Jack Clifford and his talkative partner, Ernie Mason. Under the direction of Peach King prey Harris they have arranged a wonderful display of all types of Ford products.

This concern will also exhibit at Binbrook on Wednesday next and at Smithville on the 23rd and 24th of this month. Do not miss this exhibit. Even if you do not buy it is worthy of your observation. For the ladies of the farm, just to talk to Jack Clifford is something.

Bones Of Child And Portions Of Coffin Washed Out Of Bank On Old Lake Lodge Property—May Have Been Buried Over 150 Years Ago By Pioneers.

Ten-year-old John Hend of Maple Avenue, reported to police last week the finding of what appeared to be human bones on the lake bank three hundred feet east of Maple Avenue.

Subsequent investigation by Chief of Police James, and Coroner Dr. A. F. McIntyre, led these officials to believe that they were the skull and jawbone of a child of about six to eight years of age.

Undoubtedly the bones which had become visible due to the erosion of the lake front had been buried for an undetermined number of years, and it is possible that this spot was a burial ground for early settlers to this district, although no record of such a burial ground is indicated by the Grimsby Historical Society.

Several indentations atop the lake bank may or may not be graves. Evidence of a coffin measuring about four by six feet and buried some four feet down, indicate, however, that this spot, now right on the lake frontage was once at least half a mile inland.

The Crown has deemed it unnecessary to make a further investigation of the matter, and the bones unearthed will be buried in Queen's Lawn Cemetery stated Chief James.

DISTRICT GROWERS MAKE BIG "EX" SWEEP

Take All Prizes Worthwhile In Showing Of Peaches, Pears, Plums And Grapes—Where Was Grimsby?

Entries from Canada's Niagara Peninsula fruit belt Monday swept all prizes in Canadian National Exhibition judging of peaches, pears, apples, plums and grapes. William and Lewis Backus, of St. Catharines, fought it out for top honors in the grapes, peaches and plums division. In apples and pears the Drummonds of Waterdown—D. R. Drummond and W. H. Drummond and Sons—were almost the whole show.

William Backus took six first places for peaches and Lewis four, with the one finishing second to the other in each division. William won in the Elberta, Veteran and Valiant classes while Lewis won (Continued on Page 3)

GRIMSBY WEATHER

Highest temperature 84.0
Lowest temperature 48.2
Precipitation 0.91 inches

Ontario Experiment Has Succeeded — The Scheme Originated With The Beamsville Growers' Co-Operative, Representing 186 Growers In The Grimsby-Vineland Area — Three Shipments Have Been Made.

Ontario fruit is taking wings these days—for the first time in volume—to what promise to be rich new markets overseas.

In the fruit stores of Bermuda this week air-shipped peaches from the Beamsville area nestled alongside American peaches. Specially-selected fruit, fresher-looking, better-graded than the American seaborne produce and price-tagged 10c cheaper, they were snapped up as fast as they appeared.

This week's shipment was the third to be sent to Bermuda on a trial basis. It totalled 1,500 lbs. or the equivalent of about one-fifth the average weekly seaborne shipment from the U. S.

The Ontario experiment has succeeded. Next week the Beamsville growers will be shipping more than double this week's order. By the following week, if present tentative deals go through, the order will be up to present U.S. volume—six-seventeen tons.

Next week, too, TCA will be flying first trial shipments to Belgium and Switzerland, and possibly Britain.

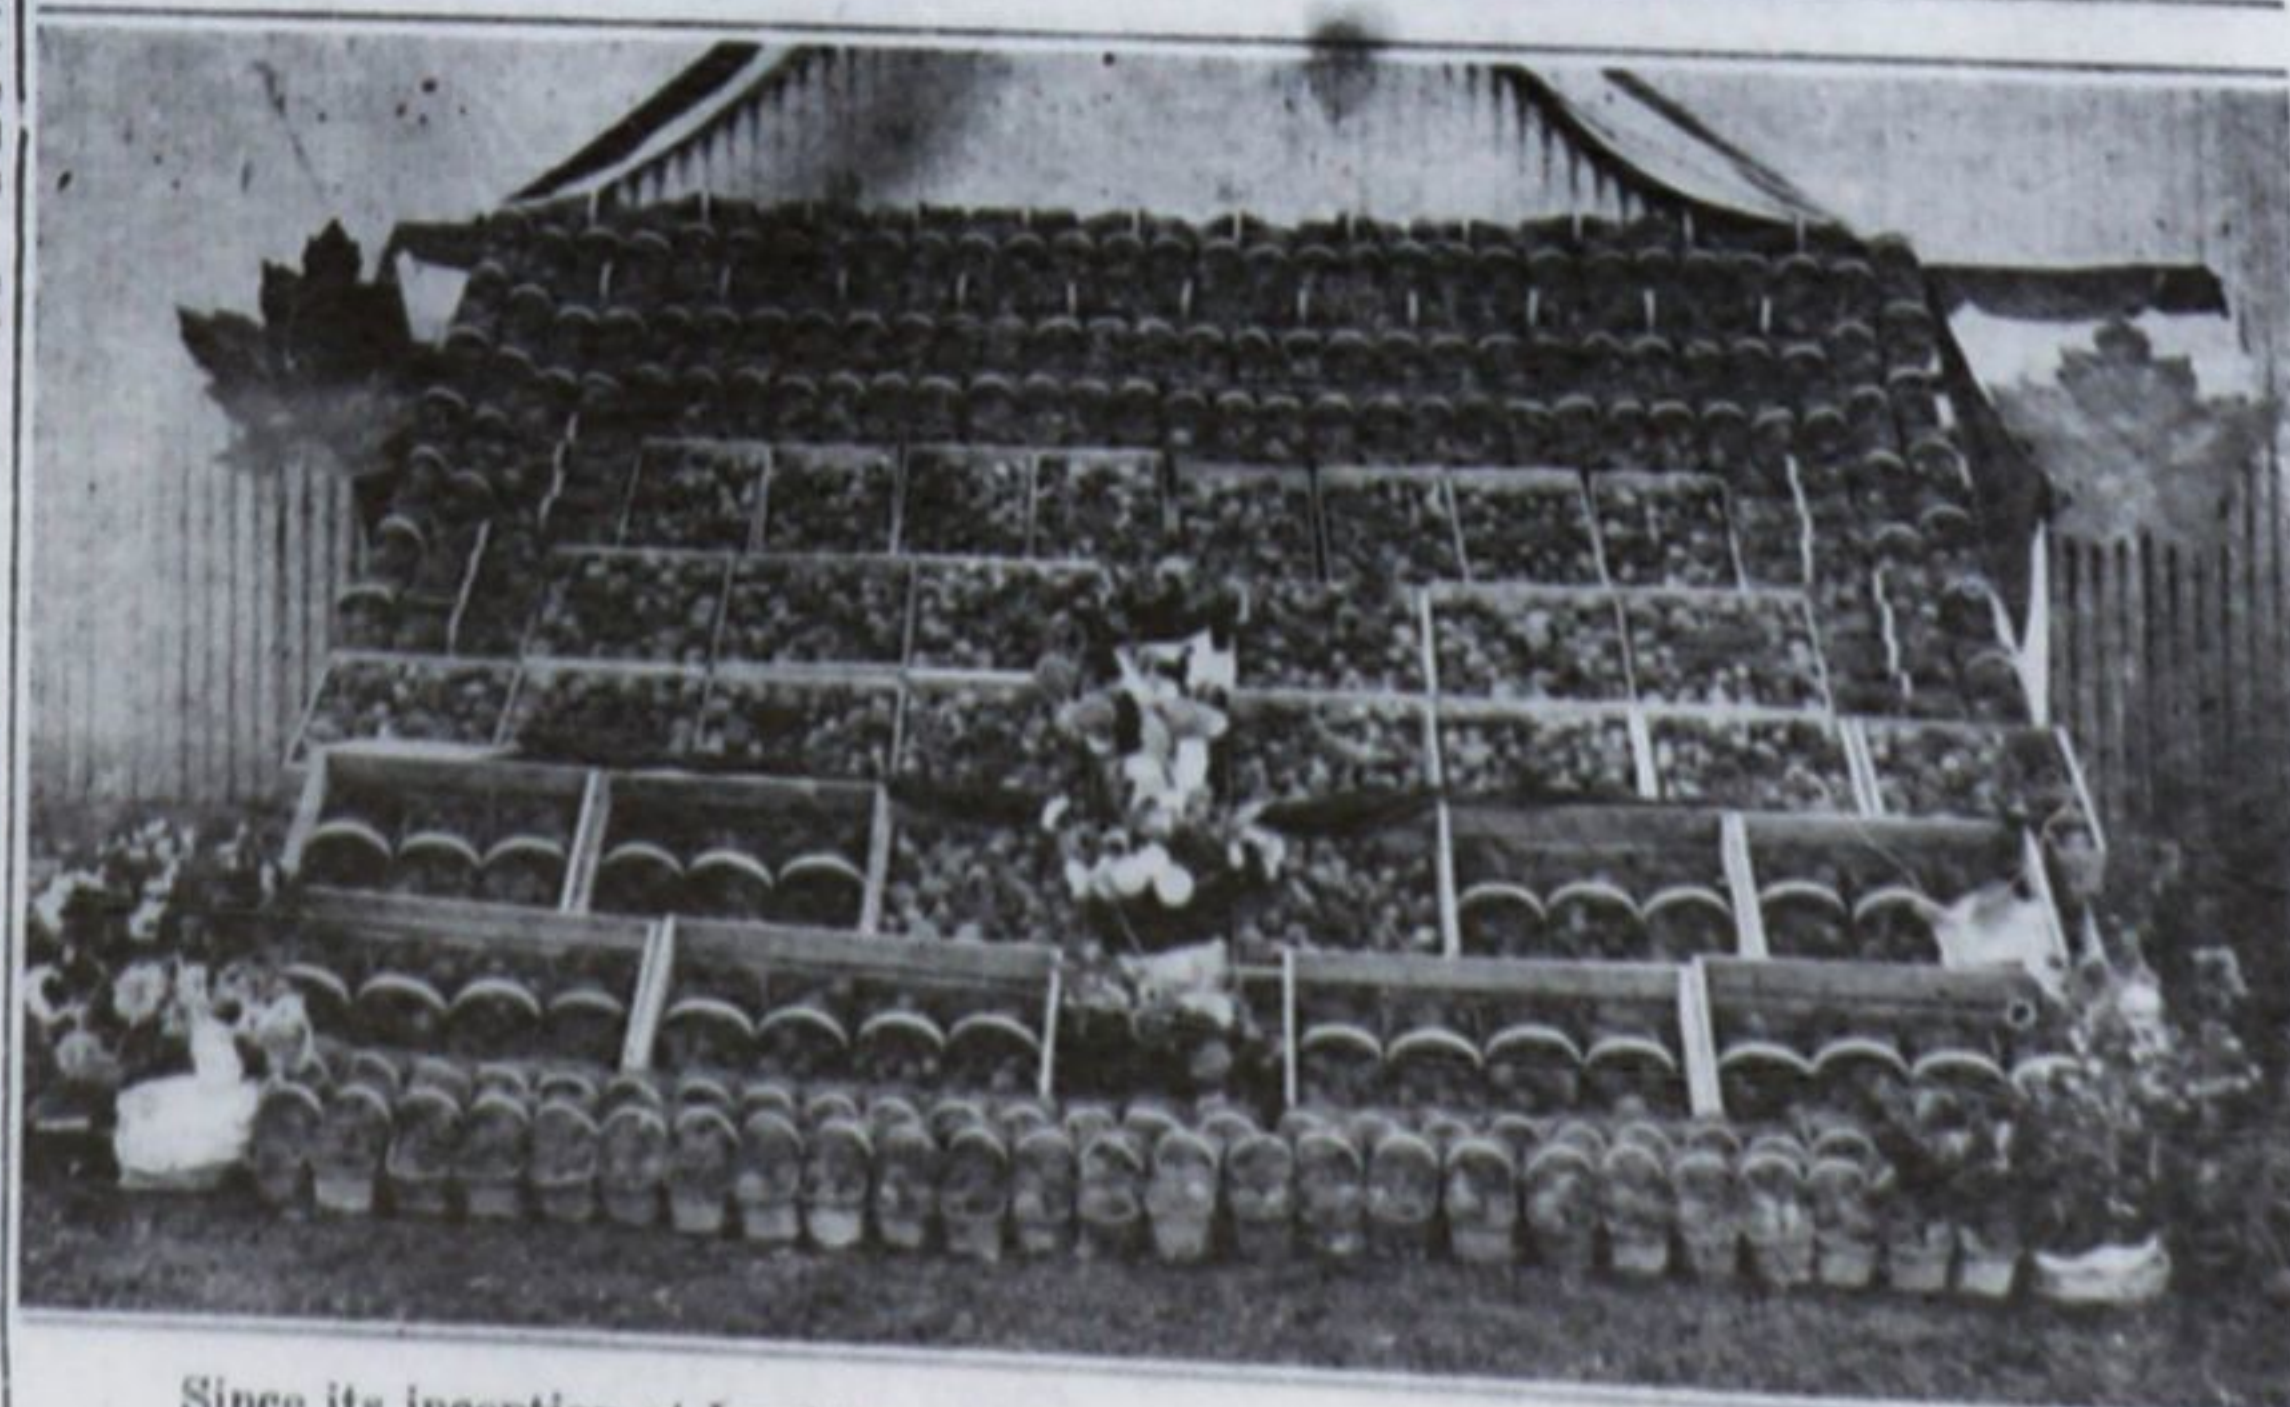

And for next year plans have been laid to market pears, plums, grapes by air.

The air marketing scheme originated with Beamsville Growers Co-operative, marketing organization representing 186 growers in Grimsby-Vineland area of Niagara, was developed by a recently-organized Toronto importing firm, J.P. Fielding Co.

It was the success of the Maritime's fisheries in boosting their sales in Ontario and Quebec by flying fresh fish to Montreal and Toronto that led the growers to (Continued on Page 3)

Armand Smith, President of E. D. Smith and Sons, Ltd., Winona, Ont., announces the appointment of Douglas S. Watson, sales manager, to the Board of Directors. Mr. Watson has been with the company for 15 years.

Since its inception at least twenty years ago, the annual Fruit Tournament, sponsored by the Grimsby Lawn Bowling Club, has gained recognition as one of the top tournaments of the lawn bowling season. This year will be no exception according to officials who state that the entries are pouring in thick and fast. Besides the usual prizes of choice Grimsby greens will be a hive of activity. Should the entry list be too great for the Grimsby greens, the overflow will compete on the Beach or Beamsville greens.

Facts • And • Fancies

FRANK FAIRBORN, JR.

True independence is never afraid of appearing dependent, and true dependence leads always to the most perfect independence.

THIS WILL HELP FRUIT BELT

The Ontario Government is creating a fund of \$50,000,000 from which municipalities may draw to finance certain necessary public works and at a very minimum of interest.

Here is a very cogent explanation as found in the news despatch:

"The Frost Government, alarmed at the growing pollution of lakes and streams and the inadequacy of many sewage disposal plants in the face of rapid postwar industrialization, believes this encouragement will lead to scores of municipalities undertaking such local improvements as waterworks, sewers and incinerators. It is stressed that no scheme that is not financially sound and within the means of the municipality concerned, will be approved for government aid."

If this idea, as announced by Premier Frost, is carried out then every small town, village and hamlet in Ontario is going to benefit in a wonderful manner.

Grimsby will benefit, as sewers that have been badly needed for years will now undoubtedly be built. Our neighbouring Village of Beamsville will benefit greatly as the citizens of that fine village are faced with an expenditure of \$300,000 or more, for sewers; Smithville citizens are already living under a mandatory order from the Ontario Department of Health to construct a water system at a cost of \$120,000. This new financial set-up will certainly help these two municipalities more than it will help the booming town of Grimsby, yet we will get our share.

There is no doubt but what Tory Mayor Clarence W. Lewis, and his Finance Minister, Grit Bill Lothian, will be early on the job to get all that they can reasonably expect toward further construction of sewers in Grimsby.

STEPHEN LEACOCK'S OPINIONS ON TEACHING ENGLISH

(By Percy Ghent in Toronto Telegram)

Down in the basement of the villa on Old Brewery Bay on Lake Couchiching, once the home of Stephen Leacock, there are many boxes and cartons filled with the notes, book drafts and other papers of the Canadian humorist, a recent news story reveals. We have evidence that the stuffing away of such writings in anything that was handy was a fixed habit with the genial professor of wide renown. In our own collection of Canadian literary autographs there is a Leacock manuscript of a few pages written in his flowing hand and with never a thought in his head about the economical use of paper.

It was secured from an autograph dealer in New York at a modest price. A letter from Stephen Leacock which accompanied the manuscript shows that his kindly spirit embraced even those unpopular pests of the famous, autograph hunters. Dated at Montreal, January 31, 1920, it is in itself a characteristic bit of Leacock humor:

"Dear Mr. Saunders: For many years I have kept manuscripts with the feeling that sooner or later such a request as yours must come. I have at present almost two barrels full. The supply far exceeds the demand. So it is with great pleasure that I send you a chunk of my writing. It was published, I think, about three years ago. Very faithfully,

STEPHEN LEACOCK."

Brief, bright and breezy, the manuscript outlines Leacock's jovial protest against academic methods of teaching English. Where it was originally published 32 years ago we don't know, nor in which—if any—of his 56 books it could be found; probably in an extended form. Perhaps some reader could enlighten us, for our own acquaintance with the writings of Leacock is not as wide as it should be. At the moment, too, books of reference are not available, for we're tapping the portable typewriter up in the lakeland, beside sunlit Lake Bernard.

In his essay Leacock says it is an amazing fact, but nevertheless true, that both Rudyard Kipling and Sir James Barrie would have failed miserably if they had tried to pass the entrance examination of any Canadian university. As for Shakespeare, "I doubt if he knew enough of what is called English by our education departments, to get beyond a kindergarten."

Did you find English grammar an agonizing subject in your school days? If Leacock had his way with the teaching of the lessons would have neither terror nor tears, nor would there be any 300-page textbooks growing more complex page by page. In his own words: "All the grammar that any human being ever needs, or is of any use as an intellectual training, can be learned in a few weeks from a little book as thin as a Fitz-Carion sandwich." What about rhetoric? Worse and worse, according to Stephen Leacock. Its law for the construction of sentences and paragraphs, he says, are about as reasonable and as useful as directions telling him how to be a gentleman, or how to have a taste for tomatoes.

In the same merry vein he holds up to scorn the folly of trying to "examine" a student in English literature, a form of torture as cruel as it is unnecessary. An "inquisition" the humorist calls it. Students are asked to distinguish "styles" of authors as they would the color of their whiskers, expected to divide authors into schools, and to sort them out as readily as a merchant classifies fish. That the poor student can do these things in a two-hour examination is a "silly supposition" in the opinion of Stephen Leacock, and we think he's right.

Our own special gratitude to the humorist is for that classic of fun and homely philosophy, Sunshine Sketches of a Little Town. It is a book beloved of thousands not only in Canada but beyond its borders. It was a picture of Orillia, it is said, as the author knew that thriving town in earlier days. Yet it is so packed with happy, human touches, true to life in any little town, that it might have been written about Sundridge nestled beside Lake Bernard here. Or about Niagara-on-the-Lake, Pickering, Port Credit, Huntsville, or any of a hundred little towns with their own celebrities and celebrations. Written about fond, familiar things dear to us all, it is a book that will live.

In how many Canadian schools, we wonder, do they use Sunshine Sketches in literature lessons, for literature of a wholesome sort it is, and with a spice of humor Canadian children understand to speed the "read, mark, learn and inwardly digest" stages of its assimilation. Or must the bewildered youngsters still stagger through Westward Ho! and the Vicar of Wakefield, as we did in our hapless youth? We might have appreciated both those books if over-zealous teachers hadn't insisted that life would be empty without them. And we couldn't see why it should.

One March morning of 1944, accompanied by a fellow-technician, we trundled a mobile x-ray machine into a hospital room where Stephen Leacock was lying grievously ill. His doctor wanted radiographs of his chest, hoping for signs that did not appear, telling of improvement. He was pathetically weak, yet more than willing to co-operate as we made the exposures. "Was I a good boy?" he said, smiling, when the radiographs were made. Still smiling, he raised a hand feebly in farewell as we left the room. He died the same day.

Don't value a man for the quality he is of, but for the qualities he possesses.

While I am back on the job I am still "askeered" to go and face The Village Banker.

You have read the book, "What makes Sammy Run?" What I want to know is, "What keeps Scotty Ryan going 19 hours a day?"

Met Archibald Hugenot Dixon last Tuesday. The old Peach Kings mentor looked kind of natural. He had lost that paunch developed through the winter.

Looks to me like my patient, tolerant, Grit friend, Councillor Bill Lothian, may get sewers on Maple Avenue next year. I hope a lot of other streets get them.

What little I have been able to see of it, it looks to me like that new Hewson building, which will be occupied by Harris Motors and Scott Fishing Tackle Co., is a real building and a credit to Main Street.

They do tell me that Ernestine Mason has graduated from a super gasoline salesman to a super-duper salesman of Ford products to the agriculturists of the South County for Harris Motors. If a flow of language makes a salesman then Ernie should be a terrific success.

When is Mayor Lewis and His Council going to give the green light to Councillor Jimmy Braid, Chairman of the Property Committee, to go ahead and give the exterior of the Municipal Building a real paint job? Right now the appearance of the building is a disgrace to any community. Let alone Grimsby.

When I got my first good glimpse of the vacant lot between the Old Fort and the Village Inn, I said "Ye Gods and Little Fishes, Peggy O'Neil has gone into the truck and tractor business." I soon found out that the lot had been used all summer by "Hustling Hank" Harris as a display ground for his big line of Ford automotive products.

Oh, woe is me! "Brudern and Cisterns," am I in trouble. The roof not only fell in, but the house fell down. My Eight Beautiful Widows ganged up on me and under threat of decapitation demanded to know who My Little Peach Bud was. I have been living under the protection of Police Chief James and his men for days. "Hell Hath no Fury Like Eight Mad Women."

Theatre advertisement in The St. Catharines Standard—"You Have A Date With 'The Perfect Woman'—Shucks! I do not need to go to St. Catharines or any place else to see lousy Hollywood film production of 'The Perfect Woman.' All I have to do is step out of my front office door, any time any day in the year and in 15 minutes I will see hundreds of PERFECT WOMEN."

I have been riding in taxicabs a lot the past three months. I spent five years in the taxicab business in Buffalo and other points in the United States. The boys that owned that big business were the Van Dyke boys of Grimsby (Fred and Mel). They built a tremendous business overnight on the fact that their drivers were clean and nice, careful and courteous. You have in Grimsby on a smaller scale, just the same kind of taxicab service. Do not be afraid to call Red Mason, any hour of the day or night and I will gamble that you get, within reason, careful and courteous service by drivers that are clean in every respect. Do not be afraid to let Ma ride in a Mason taxi. I let my Ma ride in them, even after midnight.

I know that there are a lot of people, particularly new residents, who wonder why I rave about Main Street. Well, here's the story, folks. I was bred on Main Street. I was "Borned" on Main St. I was raised on Main Street. I was educated in Grimsby public schools, at least the teachers tried to educate me. I started my printing and newspaper career on Main Street. For half a century I have fought and cajoled for Main Street and Main Street has responded, so has the whole Town of Grimsby and North Grimsby until today Main St., the Town and the Township stand out in the whole Dominion of Canada as the Greatest Street. "The Biggest Little Town in the World" and the finest and greatest agricultural Township in this broad country. As I stated above, I was born on Main Street. I was raised on Main Street. I have an arm working and fighting on Main Street and I will DIE on Main Street. What happens after that I do not know, nor does anybody else.

NEITHER PITY NOR CHARITY

Before the late publisher of the Toronto Star passed away he made a will professedly turning his paper into a charitable foundation.

A few days ago a little Baptist parson up in Guelph got himself into trouble by writing what was termed a "love letter" to a married woman member of his church.

It was a sad affair for the parson, who publicly confessed his fault, and it was a sad and embarrassing affair for his parishioners and the denomination to which his church belongs. It was a case in which one could hear the Master saying, "Let him who is without sin among you cast the first stone." A goodly number of the parson's congregation took this charitable view and stood by him; but that newspaper in Toronto which

boasts the biggest circulation of any daily newspaper in Canada, and prides itself upon being dedicated to charity, exploited the story for all it was worth by word and picture, dragging the poor little parson and his people through the slime of its sensationalism; holding him and his church up to ridicule and displaying a lack of charity which mocks the allegedly charitable intent of the now famous Last Will and Testament.

What may be said of the Toronto Star in this connection may also be said of the Toronto Globe and Mail and the Toronto Evening Telegram. The extent to which human weakness and little people's troubles are being sensationalized and exploited by the Toronto papers is a shame to the press of Canada. —Hamilton Spectator.

CBC SHOULD BE FREED

Most Canadians will not take kindly to the proposals of The Canadian Broadcasting Corporation, that radio license fees be increased to \$5.00. The brief, to be presented to a Royal Commission in September, stresses the need for more revenues, if the CBC is to continue services on the present scale, and make some improvements. The increased revenue, it is contended, would enable the CBC to extend its coverage to all parts of the country.

Mr. A. D. Dunton, Chairman of the CBC has always tried to lend the impression that the CBC is more Canadian than its privately-owned competitors in television and radio. It is difficult to understand how he squares this attitude, with the CBC's obvious dependence on American network programs, while Canadian privately-owned stations, daily perform thousands of community services that the CBC could never attempt. For the greater part of its revenue, CBC depends on the present annual inuitious tax of \$2.50, which is contributed in a spirit of light-hearted gratitude, in perhaps one case in a thousand.

Independent stations on the other hand, gain revenue from attracting listeners, who tune in of their own free will.

It would appear that the CBC is just another "sinkhole," into which public funds are being poured, with absolutely no regard for the source. There are those who maintain that the Corporation is a powerful agency of propaganda for the government and certainly the CBC appears to show an eternal unwillingness to surrender any part of the monopoly which it has built up over the years. The Canadian Association of Broadcasters should oppose strongly the attempt to boost the radio license fee.

The time is long overdue when the CBC should be freed from government control and political meddling, in the interests of all private stations and the Canadian public. The muddle into which the CBC frequently appears to find itself in this country, is just another monument to the lengths to which bureaucratic zealotry can go. This latest attempt to tax the people an additional \$2.50 a year for the privilege of enjoying their favourite programs should be promptly scotched.

DEAL WITH PEOPLE YOU KNOW

If you wish to buy some advertising space on some book cover, or an encyclopedia of an unfamiliar vintage, probably with some other premium thrown in for the same price, or contribute to a fairly good assortment of almost unheard-of charities, in fact if you want to spend your money on a lot of things, there is a goodly supply of transients moving around the district who are quite willing, nay, even anxious, to take your money.

On the other hand, if you wish to be absolutely certain where your money goes, and precisely what it will buy, it would be best to consult some authorities or agencies which are established to protect the public from illegal business practices. The local police department and the Chamber of Commerce are anxious to help in this respect.

The summer months always bring their assortment of transients, bringing with them a variety of wares ranging over the entire re-

tail field, from magazines to sweepstake tickets. The latter of course, have been somewhat conspicuous by their absence in recent years, but it is said, if one looks far enough, even these may still be found.

Strangely enough, although such people seem to offer goods at bargain prices, in most cases the customer takes a beating in buying inferior goods, receiving actually less than led to believe when making the purchase, or the purchaser often enough is stuck with having made the down payment on goods which he will never receive.

One rule, however, will be helpful. Do business with people in whom you have found you can place confidence. The local merchant, who has served you over a long period, given satisfactory service and established his reliability, is the best insurance against transient trader malpractices which may be found.

with pay. She is an independent woman of the world and she is her own boss.

There have been as great souls unknown to fame as any of the most famous.

Do good to thy friend to keep him, to thy enemy to gain him.

A good man is seldom uneasy, an ill one never easy.

Teach your child to hold his tongue, he'll learn fast enough to speak.

A THING OF THE PAST

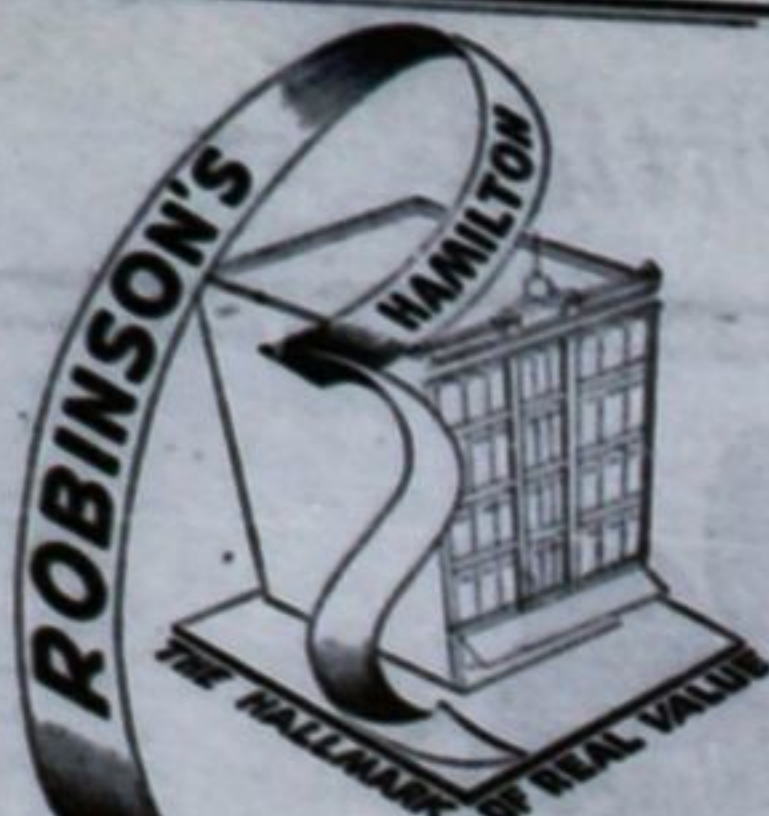

The hired girl of yesterday has vanished.

She was readily accessible in times of family stress to lend a helping hand for indefinite and lengthy periods.

Families were large in number and especially while the children were young mothers did rely on the hired girl to oil the household wheels.

Today the hired girl has turned into a store clerk, a telegraph operator, a restaurant waitress, a typist or stenographer.

Wherever she is she receives at least a minimum wage for a maximum number of working hours. She can count on a vacation

IT WAS A TOUGH STRUGGLE, BUT HEY GOT SNOOPY OUT OF SILO

Seventy-nine hours and 31 minutes—and three acres of corn were used to help release Snoopy, the vivacious, 650-pound heifer of Osceola, Wis., after she dived in a 12-foot deep silo pit. The corn in the form of silage, was used in an "elevator" on which Snoopy rode from what amounted to a circular dungeon. Here Snoopy is seen in silo before her release.

From Page One

ONTARIO PEACHES

First Newfoundland was considered but it was found the rates were too high.

Enquiries about the luxury market in Bermuda told another story. There it was found that even after charges of around 26c a lb. were paid, Ontario peaches could still be laid down in Bermuda at a rate that looked attractive to the importer, enabled him, in fact, to undersell his competitor handling American fruit by 10c a lb. (in Bermudan money, 2s 6d as against 3s).

Part of this price advantage is gained by the low spoilage rate air shipment allows—one half of 1% as against an average 8% spoilage when sea-borne.

How Fielding Co. entered the picture is just "one of those things."

Head of the firm, John Fielding, came to Canada 18 months ago as an immigrant from the U. K. with agencies for U. K. engineering equipment in his pocket.

Looking for sales led him to Beamsville. He had what the growers wanted and this summer put in irrigation schemes on half a dozen of the Beamsville co-operative's orchards.

The growers told him about their air marketing idea and after doing some digging around among his business contacts he actively promoted the idea.

Now he's also in the fruit business, as the growers' broker in Toronto. He started off with one account in Bermuda three weeks ago. This week in his Toronto office came a representative from Bermuda, offering him five new accounts including one from a grocery supermarket organization in the island.

With only six weeks of the peach season to go, Fielding isn't looking for much more business this season.

But next year he says, should be a bumper year.

"And we won't stop at peaches. If we can sell them we can probably sell a whole lot of produce by air. We've definite plans for trying out plums, pears and grapes and we'll be taking a look at some fresh vegetables as well."

Currency difficulties have so far not entered the picture. The Bermuda authorities have readily granted required import licenses since the importers concerned have American dollar surpluses. No difficulty is expected in the case of either Belgium or Switzerland. Fielding is still awaiting word on the British deal.

SOIL CONSERVATION

is another problem to be faced by the five-man committee. It was felt that increased use of grain manure and other crop refuse would alleviate the bleached conditions.

Another proposal called for demonstration fields to be laid out in each special area. These fields will be treated with several methods in order that the experts may find the best solution to each problem.

One matter brought out was the loss of soil due to sheet erosion on top of the Niagara Escarpment, and also the fertility loss resulting from the tons and tons of manure which are shipped annually to the orchards below the escarpment.

As far as the latter is concerned, the natural fertilizer does not seem to help the fruit belt lands what soever. It was recommended that this removal in huge quantities from the escarpment be stopped from other means be tried.

To stop sheet erosion it was recommended that reforestation be started along the top edge of the escarpment. The proposal also suggested that the farmers reforest their waste lands, and along the

banks of creeks and other waterways.

It was felt that the individual growers and farmers ought to do this themselves instead of looking for the county council or other administrative bodies for assistance. Reforestation along the escarpment it is hoped, will help stop the erosion which is stripping the lad of its top soil and exposing outcroppings of rock.

The 15 men who met Thursday night called for the building up of recreation parks and picnic grounds throughout the county as an increase to the beauty of the county and an added attraction to tourists. Since conservation is basically an agricultural problem it was recommended that the Conservation Authorities Act be placed under the supervision of the Ontario Department of Agriculture.

Lake shore erosion was another big difficulty and to dispose of this it was suggested that materials be provided—such as boulders, to dump along the shoreline. This would slow the incoming current and prevent the washing away of mile after mile of sand along the lakeside. The committee of five will mull over these suggestions and proposals and prepare a brief for the October meeting.

YOUR TAG PURCHASE

handicrafts. By her own example, the Home Teacher could help to awaken Sally's ambition, build up her morale when the darkness seemed to overwhelm her.

After some months, Sally had adjusted herself to life without sight with remarkable success. And back she went to school to finish her junior matriculation. Other students read the lessons to her. Her parents coached at home. Her school friends helped in her rehabilitation by tating Sally just as they had always done and she continued to take part in the extra-curricular activities of the school. When the time of examinations came, Sally passed with flying colours.

With school behind her, Sally turned to the C.N.I.B. for advice about a career. She knew what she wanted to be—a Home Teacher for the Institute—but she was not yet old enough for that job. Meantime she was trained to operate one of the Institute's cigarette stands. In a large office building, Sally enjoyed her work and she knows that the experience gained in meeting people and managing a business will help her to develop poise and initiative. She is happy to be able to earn her own living. A few years ago she didn't imagine that would ever be possible.

And Sally is looking ahead to the day which is drawing steadily closer, when she can take the C.N.I.B.'s Training Course for Home Teachers. She wants to give others the help and service that has meant so much to her.

Sally Thompson is not her real name, but she is a real person, one of hundreds whom we can help when we make our contribution to The Canadian National Institute for the Blind. This week the Institute is holding its annual campaign in Grimsby. Your generosity will help to make a dark future bright for other Sallys.

Donations can be made at the Bank of Commerce.

DISTRICT GROWERS

with his Vedettes and Vee variety and both scored in yellowflesh classes.

In grapes, Lewis held the edge with nine firsts against seven. He scored with these varieties: Agawon, Campbell Early, White, Delawar, Patricia, Salem, Worden, Concord, Lindley, Moore Early and Niagara. Both won classes in the blue variety.

In plums, William Backus took

six firsts in these varieties: Blue, green or yellow, Bradshaw, Fellenburg, Reine Claude. Lewis Backus took four firsts in these: Grand Duke, blue, yellow or green.

In pears, W. H. Drummond and Sons took 10 firsts—seven in the Bartlett classes and others in the Keiffer, Anjou and Disc. Lewis Backus won firsts for his Sheldon and Clairgeau. William Backus took a first for Howell and another for his 10-varieties entry.

In apples, W. H. Drummond and Sons won 22 firsts places among these varieties: Alexander or Wolf River, Wealthy, Cortland, Duchess, McIntosh, Melba, St. Lawrence, D. R. Drummond took five firsts among the Gravenstein, Duchess, Fameuse and Wealthy classes.

PREMIER FROST WILL ALLEVIATE SITUATION

(Smithville Review)

During the past two months many residents of Smithville have been wondering "what has happened to Smithville's proposed water system." During this time Engineer Grassie, Village Trustee and Township Council have been taking necessary steps to clear the way to proceed on the Mandatory Order issued by the Ontario Department of Health.

First of all it was necessary for Mr. Grassie to re-survey the entire village and layout the definite plan for water mains and submit this plan to the Department of Municipal Affairs for their approval. Also to investigate and obtain a suitable place to drill a test well or wells. All this takes time, but at long last has been completed.

In this issue of the Review tenders are called for drilling test wells. This will be done in the South end of Smithville and tenders must be in by 12 o'clock noon (E.D.S.T.) Saturday, September 17th, 1949.

Once the tenders are received no time will be lost in selecting the most suitable tender and proceeding with drilling operations. Following this, future steps should follow in rapid succession.

Whenever you are near a school — Follow Safety Sally's rule.

Yes—when you approach a school SLOW DOWN—be on the alert to avoid an accident. The rules of highway safety are simple to observe. Exercise care, and don't take chances.

GEO. H. DOUCETT, Minister

ONTARIO DEPARTMENT OF HIGHWAYS

Social Events — Personals — Organizations — Club Activities

Mr. and Mrs. James Cross of Ottawa, are spending a week with the S. G. Gardhams at Tall Trees.

Mr. Charles A. Hysert, Markstay, Ont., who is spending a few days with relatives in Grassie, was in town on Tuesday renewing old acquaintances.

Miss Allison Cross, Cobourg, nurse-in-training at Hamilton General Hospital, was the guest of her aunt, Mrs. S. G. Gardham, Tall Trees, over the week-end.

Mr. and Mrs. C. M. Woolman of Chicago, and Mr. and Mrs. Dan Wells and children, of Palmerston, were recent guests of Mr. and Mrs. James I. Theal, Main East.

Thomas and Mrs. Gammage of Goderich, were visitors in Grimsby over the weekend.

Miss Ethel Hewitt of Toronto, spent the holiday weekend with the Alex Scotts, Main west.

Mr. and Mrs. J. England have purchased the home of Winifred Congdon on Main St. E.

Philip Moberly is at his home, 13 Adelaide St., on 23 days leave from Joint Air School, Rivers, Manitoba.

Charles Hysert, a former resident of Grassie, was renewing old acquaintances in the district this week.

Ex-Mayor Edric S. and Mrs. Johnson and Wilson Johnson are on a motor tour of Northern Ontario, the upper Ottawa Valley and points in Quebec.

Mr. and Mrs. Geo. Thomas (Arlene Thomson), of Detroit, and Mr. and Mrs. John Woodhall of Simcoe, were holiday visitors with Mr. and Mrs. D. C. Thomson, Elizabeth St.

Mr. and Mrs. Douglas Newington and daughters Helen, Evelyn and Kathleen, of Windsor, spent a few days recently with Mrs. A. Weir and Mrs. J. M. Lawson, Elizabeth St.

Mr. and Mrs. H. A. Baldwin left on Tuesday for their home in Donna, Texas, after spending three months with Mr. and Mrs. J. I. Theal and other friends in the Peninsula.

Miss Peggy O'Neil of The Village Inn is in Atlantic City this week accompanying Miss Margaret Lynn Munn, Miss Canada of 1949, who is competing in the Miss America contest. After their return from the American city, Miss Canada, accompanied by Peggy, will leave for Lima, Peru, where Miss Canada has been invited to appear at the national exhibition of that country.

CALIFORNIA TWEEDS

By PRUNELLA WOOD

Trust the California designers from the stimulating coast to add a bright note to even the sturdiest of 100 per cent wool tweeds . . . once needn't be somber to be warm. This suit slanted to the campus girls or their sisters with budding careers, is a brown, white and bright green plaid tweed, cut with a coat of classic lines, and a slim skirt with walking plate in front.

The jacket has three patch pockets and bone buttons for its single breasted closing; collar and lapels are a bit wide and slightly curved for a fresh style note.—Koret of California.

Nuptials

KOZLIK — WALKER

A wedding of wide interest in the Niagara district took place at noon on Saturday, Sept. 3rd, at Kenilworth United Church, Hamilton, when the Rev. R. S. McMillan solemnized the marriage of Miss Ann Virginia Walker, daughter of Mrs. Walker and the late Kenneth A. Walker, of Fonthill, and Paul Kozlik of Welland, son of Mr. and Mrs. Anton Kozlik, of Port Arthur. Mrs. G. L. Royal, of Toronto, formerly Miss Audrey Wilson, of Welland, was the soloist.

Given in marriage by her grandfather, Norman M. Walker, of Hamilton, the bride was lovely in an ankle length gown of forget-me-not blue corded taffeta, with scalloped reverses at the neckline and long tie sleeves. The skirt was fashioned with four inverted unpressed pleats at the back. She wore a tiny halo matching taffeta flowers with small circular blue shoulder length veil, and carried a sheaf of roses.

Mrs. G. M. Townsend, of Hamilton, was the only attendant and Mr. Townsend acted as best man. A frock of cinnamon brown faille crepe was worn by Mrs. Townsend with front sheering and the new fashioned loose panels at the back. Her matching hat was beige with brown feather trim and she had smartly groomed in an ankle length lorial bouquet of yellow roses.

For the reception and luncheon for the immediate family and a few friends which followed at Lookout Inn, Hamilton, the reception room was decorated with rose pink and white gladioli. Mrs. Walker, mother of the bride, was smartly groomed in an ankle length dress of navy blue taffeta with

matching small navy felt hat with red quill and matching accessories and corsage of cream roses. Receiving with her was Mrs. Kozlik, mother of the groom who wore a gown of navy crepe with black hat and corsage of red roses.

Later Mr. and Mrs. Kozlik left for a motor trip to New York City and Washington, the bride traveling in a blue two-piece suit, with navy blue hat, navy accessories and corsage of cream roses.

Upon their return they will take up residence at their new home, Norway Avenue, Welland.

Beamsville is in the limelight. It is Fair Time.

Grimsby Beach

MISS MAY CRITTENDEN,
Resident Staff Correspondent.

Telephone Your News Items To Her.

Mr. George Fair and Robert Cole Jr. are taking the Thousand Island Boat trip this week.

Mr. George Jarrett is visiting in Copper Cliff for two weeks with his son and family.

Mr. and Mrs. E. H. Gooderham of Toronto, spent a few days last week with Mr. and Mrs. W. Furnas Clarke, Park Rd.

Service in the Tabernacle on Sunday morning at 11 a.m. The speaker, Rev. Dr. Leckie of Grimsby. Morning service only.

P. E. Tregunno of Hamilton, has purchased the R. B. McGregor cottage at Grimsby Beach, and will occupy same next spring.

Mrs. Helen Arnold, Plymouth, Michigan, is staying at Limberlost cottage for 2 weeks, she will also visit New York, Fenelon Falls and Parry Sound.

Mrs. T. Shaw has moved in the apartment in the home of Mrs. B. E. A. Ball, Central Ave.

Mrs. Lottie Smith has closed her cottage for the season and has returned to her home in Windsor.

Recent guests at the home of Mr. and Mrs. H. H. Ponton were Mr. and Mrs. H. L. Hess, Dubois, Pa., Mrs. Lewis Hess and Mr. and Mrs. Merle Bement of Buffalo.

A successful summer season has drawn to a close. The Masquerade Dance on Saturday evening in the new recreation hall was the grand finale. The costumes were many and varied and caused much amusement for all.

Sympathy is extended to Mr. and Mrs. B. H. Scott, Park Road, for the sudden death of Mrs. Scott's sister, Mrs. J. G. Ogilvy at their home on Saturday. The funeral is to be held in Moose Jaw, Sask., on Thursday.

MRS. KANMACHER SR. WINS PRIZE AT EX WITH BRAIDED RUG

Mrs. George Kanmacher Sr. is a very spry young lady, and plenty fast with the answers. This we found out via a telephone conversation Tuesday night, when we called to ask about her winning second prize for a braided and hand sewn rug entered in the Canadian National Exhibition.

For around two years, Mrs. Kanmacher has worked on this rug which measures about five and a half feet in diameter, the wool cloth consisting of men's trousers. "Don't you say in this paper what it is made of though," she said.

"But that is a good part of the story," we replied.

"Well," she laughed, so we let that go. "So many friends of mine said that I should enter it in the Ex that I finally decided to do so," said Mrs. Kanmacher, "and do you know what? A man won first prize, and furthermore, men won three prizes in the hooked rug contest."

In all fairness to the fair sex we agreed with her that men were beasts for entering in such a field as hooking rugs. She thought so too.

Color? Well, Mrs. Kanmacher said that it ran from brown to tan with maybe a little tweed here and there.

Mrs. Kanmacher is just 79 years of age.

WOMEN'S IMPROVEMENT SOCIETY HOLD MEETING

Grimsby Beach.—The annual meeting of the Women's Improvement Society was held at the home of Mrs. W. Sterling, West Lake front, with the president, Mrs. C. Carrick in the chair. The publication of the Beach Weekly, under the able editorship of Mrs. H. Martin and W. Clark, has been continued with success. Members place flowers in the church each Sunday, and they are sent to the sick and the shut-ins. The bridge tea, held in the new recreational hall, was a huge success. The bazaar held in August in Bell Park was very successful and from these two projects the sum of \$500 was donated to the new hall. The group also supplied a traffic officer for the week-ends which was a great help to the residents.

Mrs. C. Freeman, Mrs. R. Betts and Mrs. Fred Neil formed the nominating committee, reporting the following officers for 1950: Honorary president, Mrs. T. A. Pugsley; president, Mrs. C. Carrick; vice-president, Mrs. Hugh Martin, Mrs. W. Robinson secretary, Mrs. John Pearson; recording secretary, Miss Mabel Davis; treasurer, Mrs. M. Bennett.

BIRTHS

EARLE—Mr. and Mrs. Alec Earle are happy to announce the birth of a son, Alec Brian, at Mount Hamilton hospital, September 3, 1949.

IN MEMORIAM

HOBBS—In loving memory of Frank Hobbs who died two years ago on September 11th.

Your last parting wish
We would like to have heard,
And breathe in your ear
Our last parting word.
Only those who have lost
Are able to tell
Of the pain in the heart
At not saying farewell.

—Sadly missed by wife and son Frank.

HOBBS—In memory of Frank Hobbs who died two years ago on 11th of September.

What would we give his hand to clasp,
His happy face to see,
To hear his voice, to see him smile,
As in the days that used to be.
But some sweet day we'll meet again,
And clasp each other's hands once more,
In heaven that happy life.

Ever remembered by his loving friends, Mr. and Mrs. A. Ambrose.

ROWE—In memory of dear Dad, who died in England, June 24th, 1949.

A beautiful memory, dearer than gold,
Of a Dad whose worth can never be told.
Alone, unseen, he stands by our side,
And whispers, "Don't grieve, Death cannot divide."
Deep in our heart a memory is kept
Of one we loved and we'll never forget;
And though the years be many or few,
We'll always be thinking, Dad, of you.

—His loving daughter, Sarah Hobbs, and grandson, Frank.

CARD OF THANKS

We desire to extend our sincere thanks to friends and neighbours for their many kindnesses to us following the fire at our home on Mountain Road.

Mr. and Mrs. Wm. Hartzell.

I want to thank the Grimsby Women's Institute, also the I.O.D.E., for the clothing and shoes sent to me and my family after the recent fire at Wm. Hartzell's home.

Mrs. Ruth Mackie.

We wish to express our heartfelt thanks and appreciation to our friends and neighbours for the beautiful floral offerings, acts of kindness and messages of sympathy extended to us in our recent bereavement. Also to those who loaned cars.

—Mr. and Mrs. Wm. Konkle and family.

ORGANIZATION PRESS CORRESPONDENTS!!

SEPTEMBER is here and all Grimsby organizations will begin to zoom with activity, after the summer holidays.

THE INDEPENDENT is waiting for those bright stories of the good work you are doing at your weekly or monthly meetings.

Do you want to increase your membership? Your story in THE INDEPENDENT can be a big help to this end.

A VOICE FROM AFAR

Last week the following post card was received from Venice, Italy. It is from Rev. Father N. M. Kohut, O.S.M., who is well known in this district:

My Dear Mr. Livingston:
Greetings to you and the Independent staff from Venice, where I am spending 2 days of my short vacation in Italy. I read about your illness sometime ago. I hope you are well. I get your paper regularly in Rome and may say that I am quite well informed about dear old Grimsby. Best wishes to my good old friends. God Bless you.

Fr. F. M. Kohut, O.S.B.M.

COTTAGE ASSOCIATION HOLD ANNUAL MEETING

The annual meeting of the Grimsby Beach Cottagers' Association was held in the Tabernacle with the president, Ray Betts in the chair. Mrs. C. Freeman submitted the report for the Women's Improvement Society which reviewed the season's meetings and social affairs. The church and Sunday School reports were given by the Rev. A. McGowan. Both organizations showed increased attendance during the present season. Their financial report showed a splendid balance for the year. The Women's Improvement Society presented a cheque of \$500 toward the new recreational hall. S. Sorley gave a report of the water committee. Harold Overholt submitted the report of the Recreational Club and presented to the association \$235 for the recreational hall. Dr. Stone reported the work done by the Aquatic Club. The same directors were elected: Ray Betts, Maxwell Purvis, K.C., Stuart Sorley, W. Robinson, Ray Jarrett, Jack Bennett, of Toronto; secretary-treasurer, H. Emerson Martin of Toronto.

FOR COVERAGE OF NEWS, SUBSCRIPTIONS AND JOB PRINTING

COMING EVENTS

Winona Hall, September 12th, is the night for the Wildlife Conservation Club organization meeting. Sportsmen, and all interested, don't forget. Time, 8.30.

St. John's Anglican Church Harvest Festival will be celebrated on Sunday, September 11th. A special service will be conducted by the Rector, Rev. Albert E. Ongley, with the church being suitably decorated by the ladies of the church. Service will be at 11.15 a.m.

On Monday, September 12th, the Winona Boy Scout Troop will hold first of this season's meetings at the public school headquarters. A big season is planned so better be on hand, boys.

DOUGLAS WATSON IS APPOINTED TO BOARD OF DIRECTORS

Brigadier Armand Smith, President of E. D. Smith and Sons, Ltd., and Chairman of the Board of Directors, has announced the appointment to the Board of Directors, of Douglas S. Watson. The appointment followed Mr. Watson's fifteenth year with the firm, his present position being Sales Manager. Born in Winnipeg of Scottish descent, Mr. Watson's father was well known to the E. D. Smith Co., serving them as Broker-representative for Western Canada from 1915 until his death in 1943.

When in 1934, Douglas Watson came to work with the E. D. Smith Company, he left behind him a vivid record of sportsmanship, where he had managed the four Panther Hockey Teams of Winnipeg. Coming here, he began work at "the bottom" to thoroughly learn the jam business, a career which was interrupted when he left to join the army during the war. Serving with the rank of Captain, in the Argyll & Sutherland Highlanders of Canada, he saw three years service in the Netherlands, as Personal Aide of Lt.-General Guy Simmonds, Officer in Command of the First Canadian Forces in Europe. His record was supported by a sister and four brothers, all of whom were in the services.

Settled now in the beautiful white house on No. 8 highway, which was the original old C. P. Carpenter home, he is married to the former Edith Doolittle of Hamilton, and has three children. Taking a keen interest in all Community affairs, he was elected President of the Winona Men's Club last year.

SCHOOLS OPENED IN WINONA—CONDITIONS IMPROVED

School bells rang again at all public schools locally and the same crowd added to by many new faces, trooped back to study again. At Winona Public School, there have been no changes in staff, with Aubrey Love beginning his fifth year as Principal. The school-children this year will enjoy advantages over last year's pupils in having modern bathrooms, and up-to-date drainage, after the installation of an expensive system.

At Fruitland Public School, Adam Laidlaw has been appointed Principal. Mr. Laidlaw was formerly Principal of Elora Public School, at Elora, Ontario. Miss A. Brown has been transferred to the new Mountain View School, due to the fact that one room in the basement of the Fruitland School used since the war, has now been made unnecessary by the building of the new school. This room caring for a class, has been crowded for a long time, and the transferring of those pupils to the Mountain View School is only one instance of the easing of conditions that will be felt by all the public schools in the district.

At Van Wagner's School there has been no change of staff, and no change from last year.

More news will be made available by the end of the week on the new enrolment of the schools, said Paul Pettit, Sec'y Treasurer of Grade 2 Area, in this district. Mr. Pettit will begin his third year as Sec'y Treasurer, since his appointment in that capacity in 1947. Previously to that he had been Sec'y of Fruitland Public School since 1943.

They will race horses for a lot of money at Beamsville on Saturday afternoon.

HOMEMAKER'S CORNER

by Evelyn Budge

Dear Homemakers!

It hardly seems possible that the summer holidays are over and once again we hear the clang of the old school bell. I imagine you mothers have been just as excited as the children, getting them ready for school. They seem to have extra large appetites and come running home from school calling, "Mother, I'm so hungry." This situation can be easily remedied by having on hand a good supply of wholesome milk, and a well filled Cookie Jar. Here are some delicious and very easy Cookie recipes for you.

Coconut Cookies

1 egg, $\frac{1}{4}$ cup brown sugar, $\frac{1}{4}$ cup butter and lard mixed (I use Crisco), $\frac{1}{4}$ cup fine coconut, $\frac{1}{4}$ cup cornstarch, $\frac{1}{4}$ tsp. salt, vanilla, $\frac{1}{4}$ tsp. baking soda, $\frac{1}{4}$ tsp. cream of tartar, and 1 cup flour sifted. Cream shortening, add sugar, then dry ingredients and vanilla and mix well. Roll in small balls, place in greased cookie pan and press down with a fork. Bake in hot oven.

Small Oatmeal Cakes

$\frac{1}{4}$ cup butter, $\frac{1}{4}$ cup brown sugar, 1 egg, 3 tbsp. milk, $\frac{1}{4}$ cup walnuts, $\frac{1}{4}$ cup raisins, 1 cup fine oatmeal, 1 cup sifted flour, $\frac{1}{4}$ tsp. baking soda, $\frac{1}{4}$ tsp. salt. Cream butter, add sugar and cream until light. Add egg, milk, walnuts, raisins and oatmeal. Mix and sift flour, baking soda, and salt and add to first mixture. Drop from teaspoon on to greased baking sheet and bake in hot oven 400 degrees fahrenheit for 10 minutes.

Graham Wafer Date Balls (Uncooked)

20 graham wafers rolled, 15 marshmallows, 1 cup dates, 1 cup nuts. Put all through mincer. Add $\frac{1}{4}$ cup milk, pinch of salt. Add vanilla. Form into balls. Roll in crumbs of 4 graham wafers.

Chinese Chews

2 eggs, two-thirds of a cup fruit or fine sugar, two-thirds cup of flour, 1 tsp. baking powder, one-third teaspoon salt, 1 tsp. vanilla, $\frac{1}{4}$ cup dates, $\frac{1}{4}$ cup raisins, $\frac{1}{4}$ cup walnuts.

Beat eggs until foamy. Add sugar. Add flour sifted with baking powder and salt. Add vanilla, then fruit and nuts chopped. Beat thoroughly. Spread in a greased 8 inch cake pan. Cut in bars while warm. Roll in fruit or icing sugar. Temperature 350 degrees fahrenheit.

Peanut Butter Cookies

1 cup butter, 1 cup white sugar, 1 cup brown sugar, 2 eggs, $\frac{1}{4}$ tsp. baking powder, 1 level tsp. baking soda, 1 cup peanut butter, salt and vanilla, 3 cups flour. Make in a roll. Slice and bake. Press whole peanut into each cookie before baking.

Dream Cake or Yum-Yums

One-third cup butter, $\frac{1}{4}$ cup flour, 1 tsp. fruit sugar. Rub butter in flour and sugar. Pat together in bottom of 91 inch by 91 inch square pan and bake 10 minutes in oven 350 degrees. In the meantime, break 2 eggs light. Add $\frac{1}{4}$ cups brown sugar, 1 cup chopped nuts, $\frac{1}{4}$ cup fine coconut, $\frac{1}{4}$ tsp. salt, $\frac{1}{4}$ tsp. baking powder, 2 tsp. flour. Spread the fruit mixture over the first mixture and return to oven for 25 minutes or until golden brown. Spread with white icing.

Dad's Cookies

1 cup butter, 2 eggs, 2 cups flour, $\frac{1}{4}$ cups white sugar, 2 cups fine oatmeal, 2 cups fine coconut, 6 tbsp. corn syrup, 2 tsp. ginger, 2 tsp. cinnamon, 2 tsp. allspice, 1 tsp. soda. Mix altogether and drop by teaspoon on a greased baking sheet and bake in a quick oven.

Chocolate Macaroons

1 tin Eagle Brand Sweetened condensed milk, $\frac{1}{4}$ lb. shredded coconut, $\frac{1}{4}$ a cake unsweetened chocolate. Melt chocolate in top of double boiler. Add milk and stir till blended. Stir in coconut and drop from teaspoon on greased pan. Bake in slow oven. When done, remove to platter and set in a cool place to chill.

Dream Biscuits

1 cup butter, 1 cup sugar, 2 eggs well beaten, $\frac{1}{4}$ tsp. baking powder, 2 tsp. cream, pinch of soda dissolved in cream. Flour to roll. When baked spread with butter icing and stick two together.

Date Squares

1 lb. dates, 1 cup cold water, $\frac{1}{4}$ cup chopped walnuts or pecans, one-third cup brown sugar. Cook dates, water, and brown sugar together and cool. Then add nuts. Then make the following mixture: 1 cup shortening, 1 cup brown sugar, one-third cup cold water, $\frac{1}{4}$ cups flour, 1 tsp. baking soda, 1 tsp. salt, $\frac{1}{4}$ cups fine oatmeal. Cream sugar and shortening. Add

water and oatmeal. Mix. Add sifted flour, soda, and salt. Divide in half. Put part of mixture in bottom of greased cake pan. Flatten down. Then cover with date mixture, and place the other part of crumbs on top. Bake in moderate oven for 30 minutes. Cut in squares while warm. Cake pan should be 12 in by 15 ins.

Evelyn Budge

SOCIAL NEWS

Mr. and Mrs. M. D. Glasco of Winona, entertained a party of friends at their home on Saturday evening, the occasion being in honour of Miss Mary Crerar and Mr. James Alder Bliss, whose wedding of wide interest takes place shortly. Present also were Mr. Thomas Ferguson, the father of Mrs. Glasco, who with Mrs. Ferguson has been visiting for the past two weeks.

Mrs. Harold O. Thomason was hostess at a charming bridal shower last Wednesday evening, when Miss Helen Jones of Hamilton, whose marriage to Mr. Clifford Barnard takes place on the 10th of September, was feted by a large group. The many lovely gifts, in the form of a "cup and saucer shower" were tied with blue ribbon in a huge basket. The hostess served a delightful luncheon, after the guest-of-honour cut a three tiered cake decorated in pink and white, and flanked by glowing white candles in silver candlesticks. Pink and white gladioli carried out the colour scheme, in perfect arrangement.

Mrs. C. J. Bradshaw and daughter Joanne, of Fruitland, spent a short vacation in London, Ontario. Mrs. K. C. Millikin returned home from Toronto on Sunday, and is continuing her splendid recovery.

Mrs. Freeman McCollum is progressing slowly after being rushed to the hospital a week ago Sunday for an appendectomy. It is hoped that she will be able to return home at the end of the week.

The "Pony" that replaces a Team

WITH the introduction of the "Pony" tractor, Massey-Harris extended the advantages of power farming to practically everyone who makes his living from the soil. There are thousands of farmers and market gardeners whose acreage does not justify the investment in large-size tractor equipment. Such men were barred from the use of power machinery until the "Pony" came into the picture. Today, it is helping them to increase their farm output, reduce production costs, and eliminate old-fashioned drudgery.

The "Pony" is an outstanding example of the farm-minded engineering that lies behind every Massey-Harris machine. In designing the "Pony", Massey-Harris engineers were not content merely to build a small-size low-cost tractor. They studied the kinds of work

that a small tractor would have to do, in practical farm use, to give satisfaction to its owner... and they calculated the requirements of power, traction, weight, and endurance that such work would call for. As a result, the Massey-Harris "Pony" out-weighs, out-pulls, and out-works every other tractor in its class. It will do more work than a team, and much more work than a little walk-behind tractor.

Going further, Massey-Harris engineers designed an assortment of quick-mounted tools for the "Pony"... exactly the right size to yield the maximum amount of finished work per hour of time and per gallon of gasoline. With these tools, the "Pony" not only does more work than a team, but does it better, faster and cheaper.

What do you
ask of
Your Bank?

The connection of many people with a Bank is only through a pass book and a cheque book.

We believe, however, that there is more mutual pleasure and benefit by doing business in a personal, friendly way.

This Bank has grown to great size, but it is a human institution, very much interested in giving something more than across-the-counter service. The needs of the individual, and how we can help him to progress, are matters of first importance.

You will enjoy banking at any of our branches.

**THE CANADIAN BANK
OF COMMERCE**

Grimsby Branch, J. W. HOLDER, Manager

HARVEST TIME ON THE PRAIRIES

Harvest on the wide prairie grain fields is in full swing again, and there is a wide variety of methods used to gather in the crop. The binder in the above photo is fast disappearing, although there are many still at work this fall, owing to a shortage of more modern machinery. The binder calls for more labor than the modern combine harvester, since sheaves must be stooked and threshed after they are tied up by the binder.

—Central Press Canadian

SPORTRAYAL

By "HIGH" MCGREGOR

The decks are cleared for action on the hockey front, now that all Grimsby ball teams have disappeared from view. Last to sink were the Grimsby Firemen, O.B.A. hopefuls until they struck a juvenile pitcher from Caledonia, who turned in a very neat three hit performance here, and downed the Firemen with considerable ease. The Firemen with the aid of a couple of angels had a fair season, but found the gate receipts a trifle low when it came to balancing the budget. Baseball is making a very slow comeback in Grimsby, and probably will never hold the position it once had, nonetheless a lot of credit is due those citizens sufficiently interested to give their time, money and energy to help promote the sport.

The only district team still holding out is the Thirty Community Club nine, coached by B. Black and John Stewart. A Juvenile team that cleaned up on everything locally, they nosed out Waterford in a thrilling finish last week, to earn a crack at an Ontario championship. The most impressive angle on the team is the most rabid support given them by the fans of the Thirty district. It just about tops anything seen for a long time.

It took a lot of planning, but officials of the Beamsville Fair have finally lined up a softball tournament for this Friday, the second

day of the Fair. Four girls teams and four mens teams will compete, starting at one o'clock in the afternoon.

Speaking of the Fair, brings us to the harness racing which will be a feature on Saturday afternoon. Entries for all classes are still coming in, and already some of Ontario's best trotters and pacers have signed to appear at the Fair. Peter L. Harvester, owned by John Summerville, and Johnny Vail, owned by Harry Dunlop of Tillsonburg, are among two of the top horses vying for good purses at the Fair on Saturday.

MORE SYNTHETICS

Canada took a big step forward in the synthetic textile business when Courtaulds (Can.) started up its big 10-million-pound-a-year viscose staple-fibre plant at Cornwall, Ontario, reports The Financial Post. Previously the staple has imported from United Kingdom.

This production is more than

80% of Canada's present consumption and provision has been made for an ultimate increase in capacity to 20 million lb.

Canadian machinery manufacturers can also take a bow. Approximately 80% of the machinery installed in the new plant was built in Canada. This is the first time that viscose rayon machinery of this type has been supplied by Canadian manufacturers.

HANDS IN TRAINING...FOR ONTARIO

Learning to Work With Copper and Brass

IN Ontario the wheels of industry turn for the benefit of every single one of us. Our lathes, dynamos, drill presses, farm combine, tractors, business machines, etc. are producing goods and services which earn dollars. These dollars provide food, clothing, medical care and other necessities which contribute to our security and high standard of living. Every single one of us, therefore, has a very personal interest in the flow of a steady supply of trained workers to industrial plants. These workers will operate machines which are important to our way of life.

We should appreciate, then, the co-operative efforts of government, industry and labour in the field of employee training. In schools and in factories our workers, young and old, are given the opportunity to develop new and specific skills in every field of business and industrial activity. For instance, very effort on the part of workers to become proficient in the art of shang and moulding copper and brass, will mean greater industrial progress will help to make Ontario a finer place in which to live and work.

THE BREWING INDUSTRY (ONTARIO)

Our Way of Life Rewards Trained Hands

Ontario workers know they can earn more, have executive responsibility and enjoy a higher standard of living in direct ratio to the skills they acquire and the way they make use of them. That's always true in a free economy—that's why our competitive system will continue to make Canada great and a great place in which to live.

NEW RULES TO GOVERN MEN'S BOWLING LEAGUE —START SEPT. 30th

The brass hats of the men's bowling league met in torrid session Tuesday night, and came up with a few new rules to govern the 1949-50 five pin bowling league which will commence September 30 at Limey's Bowlway.

Early discussion had a few of the boys considering the use of a handicap, however, this was eventually shelved in favor of a point per game and point for total pins, which should give every team a pretty fair deal.

Indications are that ten teams will form one group with the balance in a second group. The first group will consist of ten teams with the highest averages. The first four teams of each group will play off, with the winners of this semi-final to play for the trophy.

As usual there will be six men to a team, five to bowl, although four men will constitute a team, with the low score of the opposing team used as a fifth score for the underdog team.

Three schedules will be played, each team to pay six bucks per schedule, payment must be in the hands of the treasurer before the opening of each individual schedule. All entries must be in before the 21st of September.

Hear "Blondie" Canada's greatest Brass Band Snare Drummer perform at Beamsville Fair, Friday and Saturday afternoons and nights.

Homes in Norway require heating from 220 to 320 days each year.

OBITUARY

MRS. WM. HARPER

Sarah Priscilla Jeffery, wife of William Harper, Clinton Township, died after a long illness at her home on Sunday morning.

Deceased was born in North Grimsby township eighty-three years ago and has been a resident of the Winona-Beamsville district all her life. She has lived in Clinton township for some forty years. She was a member of the Beamsville Women's Institute and of St. Andrew's Presbyterian Church.

Rev. Stuart Woods conducted the funeral services at the home Tuesday afternoon. Interment took place in Queen's Lawn cemetery, Grimsby.

MRS. G. A. SCHOOLEY

Mrs. George A. Schooley died at the home of her son, John F. Schooley, North Grimsby Township in her 74th year.

The former Annie A. Doan, she was born in Welland, and had lived in Alberta for 36 years before taking up residence with her son five years ago.

Her husband died some years ago and her only survivors, besides her son, are two grandchildren and one great-grandchild.

The funeral was held from the Stonehouse Funeral Home on Saturday afternoon with Rev. A. L. Griffith conducting the service. Interment was made in Queen's Lawn Cemetery.

MRS. D. W. NICHOLLS

Mrs. David W. Nicholls, the former Manetta A. Dougherty, widow of David W. Nicholls, died at her home in Calistow Township, on Monday in her 80th year.

Born in Grimsby, daughter of the late John B. and Mrs. Dougherty, she lived at Spring Creek until 1893 when she was united in marriage to David W. Nicholls, and had lived in Calistow Township since that time.

She was a member of Kerr United Church.

Surviving are three sons, George Ernest, of Calistow Township, Hugh John, of Binbrook Township, and Claude B., of Hamilton; three grandchildren and six great-grandchildren.

Her husband died in January of this year and one daughter, Rhea, Mrs. Lorne Freeman, 16 years ago.

The remains are resting at the Book Funeral Home, Smithville, where the funeral service will be held this Thursday afternoon at 2.30 o'clock with interment in Kerr Church Cemetery.

MRS. EDNA G. OGILVY

Mrs. Edna G. Ogilvy, formerly of Moose Jaw, Sask., where she was in charge of the Saskatchewan government meteorological bureau for a number of years, died suddenly on Saturday at the home of her sister, Mrs. Beresford Scott, Park Road, Grimsby Beach, while visiting there.

In her 64th year, she was the former Edna Sutherland, and was born in Ottawa. Her husband, James G. Ogilvy, died 20 years ago. She had resided at Moose Jaw since 1913.

Surviving are two daughters, Mrs. George Townsend of Regina, and Mrs. H. F. Bailey of Victoria, B.C.; also two brothers, Brigadier Ronald D. Sutherland, of Toronto, and E. N. Sutherland, of New Westminster, B.C., and her sister, Mrs. Beresford Scott.

Two sons, James and Stuart, lost their lives while serving with the R.C.A.F. in the last war.

Service was held at the Stonehouse Funeral Home on Monday afternoon, the Rev. E. A. Brooks officiating. Interment will be made in Rosedale Cemetery, Moose Jaw, this Thursday afternoon, following service at the Bellamy Funeral Home.

Natural colour television has already been used to permit medical students to witness surgical operations.

Around the Antarctic Continent, the sea moves continually eastward in what is known as the Antarctic west wind drift.

Stuff
Round
Town

By GORD MCGREGOR

"Stuff" this week is celebrating some sort of an anniversary, for it was just eight years ago, that the typewriter slipped and "Stuff 'Round Town" appeared in the (censored) Express. The editor there was constantly on the lookout for bright articles, and we happened to sneak our first column by him, by typing it on the back of a hilarious paper clipped from Esquire. Just to make the article more appealing we enclosed a typical Eskie photo—which reclined briefly near the linotype machine and later was pinned to the door of another department of the paper. For this momentous piece of literature, we received two tickets to a football game, which we attended and got positively drenched. This, of course, was before we had learned of the inner warmth to be obtained from small bottles, and from which any real true blue football fan will refresh his rah rahs from time to time.

Since joining the staff of The Independent, Stuff has been a column that ran a poor third to Main Street, and Brevities, simply because the boss has too many windows and far too numerous contacts in local gossamer parlors to permit this column to find anything of value left about town. As a matter of fact, since this column has appeared on the back page, it is left until Wednesday noon, and if there happens to be a lack of advertising or new stories—we desperately dash off some kind of material that periodically even gets a laugh from my relations.

This week for instance we dug up a most hilarious story, at least it is hilarious to almost everyone but one James O'Brien, who is losing plenty of sleep, and fighting a losing battle with his newly acquired pet which happens to be an English deer.

The poor darn buck is no larger than a fair sized German shepherd, but with a network of antlers that is currently scaring the you know what off of the residents of Kerman and Livingston avenue.

Seems as how the buck decided to leave the O'Brien pen, and since that time a large group of amateur cowboys have been trying in vain to rope the elusive deer. Just for kicks once in awhile, the animal roars at express train speed at one of the "deerboys," thus creating great confusion. Take the case of Howie "Two Gun" Duffield. Ridding the range alone, he was suddenly confronted by this monster, and is reported to have made with more speed than he ever has been known to display.

"I'm just a newly married man," stated the jittery wrangler, "I'm too young to die," as he covered under the ranch house porch.

Other courageous people have tried in vain to rope, trip, tackle, chase and trap the elusive deer, which was reported by one Kerman Avenue lady to suddenly have acquired four babies. Actually these were four dogs who were having a helluva good time chasing the deer through orchard and garden. This is another angle that is causing husky James no end of worry.

However, even if he listened with considerable doubt to one farmer who called to say that the deer had just eaten up seventy-five trees, Tough Tex O'Clancy is another victim of the rampaging deer. This happened while the animal was still in captivity. Tough Tex was standing by the gate knocking Tough Tex for a grand slam loop. Result: One very large bump to the Clancy noggin and one more would-be hockey player sidelined.

Still the hunt continues, as game overseers and so called imported experts try vainly to find a way to capture the latest O'Brien "pet." A net was spread out in a grape row with several huskies prepared to pull the ropes when James the animal fancier gave the word. They came close too, but the buck just tripped a trifle and left the netters holding the net rather sheepishly. Speaking of sheep, Jim, why not bring in a couple of these more docile animals? Or even a cow.

Meanwhile the O'Brien phone continues to ring, as well wishes become enthused about the hunt,

J. H. Wells, Grimsby	April '50
J. B. VanDuser, Winona	Sept. '50

and irritated farmers become even more enthused.

"He just crossed in front of my house" says a lady at six o'clock in the morning. Five minutes later another call two miles distant has the leaping stag roaring through their cabbage patch.

And so we leave the tranquility of the O'Brien ranch with the women bringing forth fresh coffee as the night shift takes over, for another fruitless night of hunting the elusive deer.

Speaking personally to James the Rugged this morning, he said that although he was a little irritated to think that the deer was causing him so much trouble, he was placing some licking salt out in the range so the buck would remain healthy and buoyant. May we suggest James, that you try putting salt on the boulder's tail.

NOTICE, FARMERS!

We are paying as high as \$4.00 for dead or disabled horses and cows, according to size and condition. Small animals removed free. Highest prices paid for old horses.

BREVITIES

EVENTS AND TOPICS of the WEEK in TABLOID

Kids are mad. Schools are open.
Town Council meets tomorrow night.

Township Council meets next Monday night.

Smithville Fair, Friday and Saturday, Sept. 23rd and 24th.

The Niagara Falls Arena project seems to have dropped dead.

Beamsville Fair, TODAY, tomorrow and Saturday. Be there. Meet a lot of old friends and have a lot of fun.

Grimsby Bowling Club will hold its annual Fruit Bowling Tournament on the Johnson Bowling Greens on Saturday of this week.

Interest will be revived this fall in the uncompleted Arena project in Burlington, dormant since last spring, when a total of \$80,000 was raised in an initial drive.

Binbrook Fair, the largest and best in Wentworth County is next Tuesday and Wednesday. It has always been a great show and there is no doubt but what this year it will be better than ever.

St. Catharines building permits for the month of August totalled \$228,170, with the total to-date being recorded in the Assessment office as \$2,545,535. Corresponding figures for August 1948 were \$261,790, and for the same period in 1948, \$1,345,500.

Saturday is tag day for the Blind. The Canadian National Institute for the Blind solicit the support of all of us, who are fortunate in having our sight. Help these persons who have lost their most priceless possession. Give generously.

The Village of Acton has made application to have that place incorporated as a town, effective September 15th. Acton will vote this week on whether the installation of sewers will be made. The vote is for the go ahead signal on a \$350,000 expenditure.

DOCTOR IS LOANED TO NAPANEE HEALTH UNIT

Dr. James Jeffs of the St. Catharines-Lincoln Health Unit has gone to take charge of the health unit in Lennox and Addington Counties for the next four or five months owing to the illness of the director at that unit. Headquarters for Lennox and Addington is at Napanee, where Dr. Jeffs is expected to remain on loan until at least Christmas.

Taking over Dr. Jeffs' duties with the St. Catharines-Lincoln Health Unit is Dr. R. S. Stubbings of Toronto, who arrived Monday of this week. A graduate of the University of Toronto in 1938, Dr. Stubbings interned at St. Joseph's Hospital in Toronto and for three years practised in Creemore, near Collingwood. From 1942 to 1946 he served in the United Kingdom with the Royal Canadian Army Medical Corps as Regimental Medical Officer. On his return from overseas, Dr. Stubbings took a post-graduate course in tuberculosis and last year began the Diploma of Public Health course at the University of Toronto.

ST. CATHARINES FIRM NAMED AS AGENTS OF CHRYSLER AIRTEMP

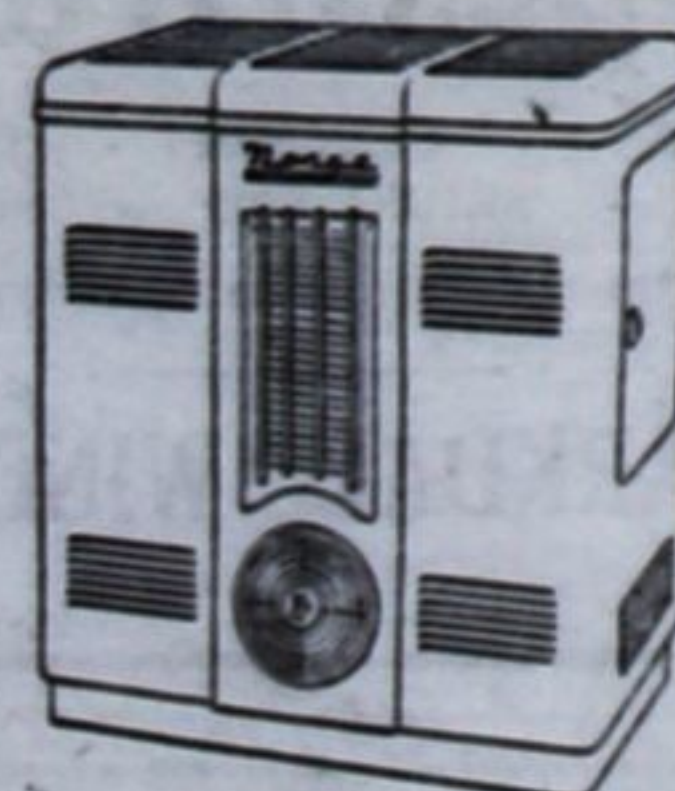

In recognition of the continuing industrial expansion in this area, coupled with the large scale home-building program, Therm-O-Rite Products Limited, Toronto, distributors in Canada of Chrysler Airtemp Products, has appointed the well-known engineering firm, of Blenheim and Sawie Limited, St. Catharines, to act as representatives in Lincoln, Welland and Wentworth Counties.

Chrysler Airtemp Products provide a complete line of cooling equipment including "packaged" air conditioners and compressors for central station installations, also automatic furnaces, water heaters and oil burners.

H. C. Blenheim, St. Catharines, in announcing the appointment, stated: "We are proud to be associated with another well-known Canadian firm in Chrysler Airtemp Products. As distributors of this internationally known product, we are pleased to add a new division to our services for industry throughout the Niagara and Hamilton districts."

The firm of Blenheim and Sawie Limited, specializes in electrical engineering, electrical contracting, and general industrial services. Their trained engineering division, now offers engineering services in the heating and refrigerating field, as well as in electrical and industrial engineering.
